

| Rep. | Components description | Dia. mm | Features |
|------|---|---------|--|
| 1 | 0.6 mm ² in flexible tinned copper conductor | 1 | <i>Electrical features</i> |
| 2 | Insulation in special flexible polyolefine | 3.4 | Conductors linear resistance: ≤ 32.4 Ohm/km Characteristic impedance: 50 ± 5 Ohm Nominal linear capacitance: 105 pF/m |
| 3 | 0.15 mm ² tinned copper braid | 4.1 | <i>General characteristics</i> |
| 4 | Hydroscopical powder | | Operating temperature: -30 to +70 °C Static bending radius: > 40 mm |
| 5 | Polyurethane sheath | 8 | Linear weight in air: 0.08 kg/m Outside diameter: 8 ± 0.4 mm Sheath colour: black |
